2010 - 2012, Academy of Fine Arts, Naples, Italy  
Second level italian degree, Graphic Design & Advertising (105/110)

## something personal

I'm overly critical to myself and my work but I'm a fast learner that try to set higher standards everytime I face new challenges. **I'm obsessed with the visual details of the things I read, see and play:** I'm always looking for new ideas and solutions and I search them in movies, videogames, literature, art. Well, I spend my salaries on comics, collectibles and typography books. As I said, I love technology but I think that our work will always have an analog heart.

At last, I don't have the ambition to be a leader but **I'm a confident and helpful teammate:** colleagues and bosses always listen what I've to say and admire my personality and optimism.
